Introduction

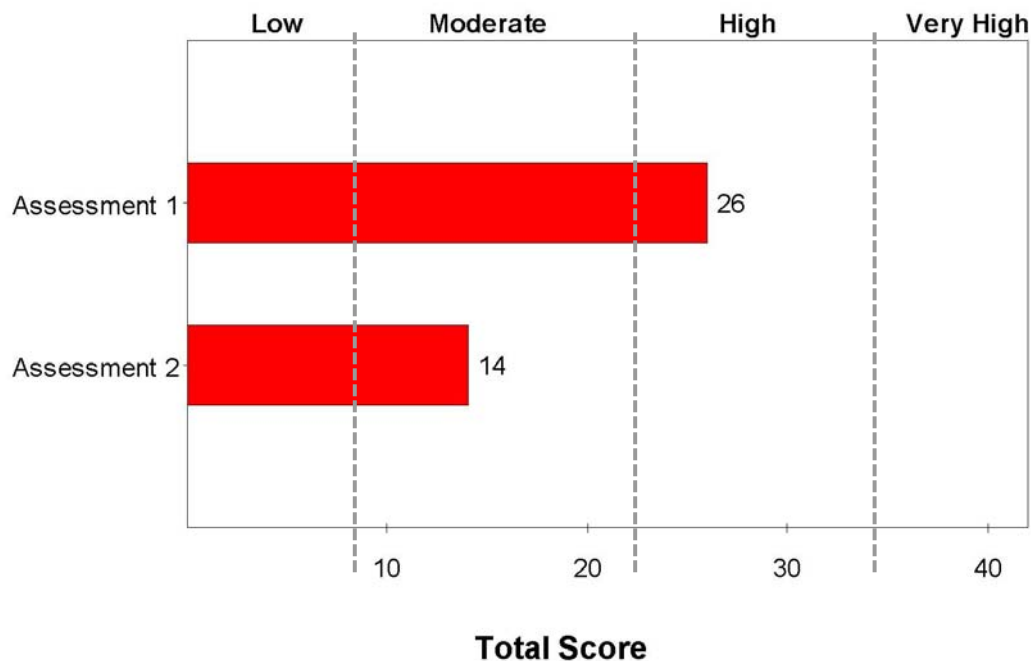

The Youth Level of Service/Case Management Inventory (YLS/CMI) is a risk and needs assessment tool. This report summarizes the results of the YLS/CMI assessment over time, and provides information pertinent to the assessment of the individual. The results of this inventory can be helpful in formulating a case management plan for the juvenile. See the YLS/CMI User's Manual published by MHS for more information about this instrument and its results.

This computerized report is an interpretive aid and should not be given to clients or used as the sole basis for diagnostic decisions and case management plans. This report works best when combined with other sources of relevant information.

Scores represent the number of items overall or within an assessment area that apply to the juvenile being assessed.

Overall Assessment Based on YLS/CMI Total Risk/Need Level

The graph below displays the YLS/CMI Total Score and indicates the classification level associated with that score across assessments.

The following table shows the standard cut-off scores used to determine Total Risk/Need Level.

Range	Risk Level
0 - 8	Low
9 - 22	Moderate
23 - 34	High
35 - 42	Very High

Basic Analysis

Based on the YLS/CMI Total scores, there were changes in the risk/need levels across assessments.

Assessment 1 vs Assessment 2

The score for the second assessment was lower than for the first assessment.

Overall Total Risk/Need Level

Assessment 1: High

Assessment 2: Moderate

Contact Level

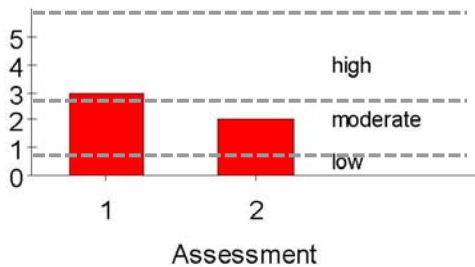

Assessment 1: Maximum Supervision

Assessment 2: Medium Supervision

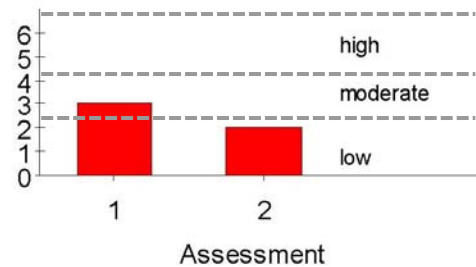

YLS/CMI Subscale Scores

The following graphs display changes across assessments for each area (using standard cut-off scores).

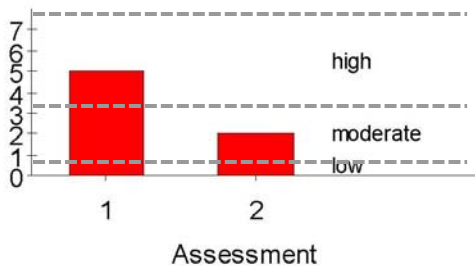

1. Offenses/Dispositions

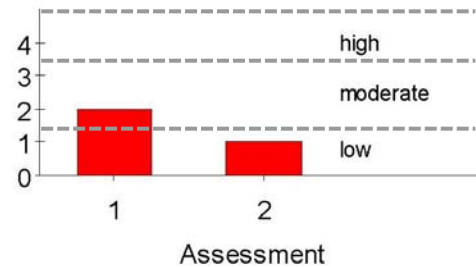

2. Family/Parenting

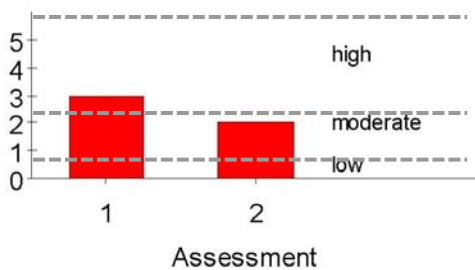

3. Education/Employment

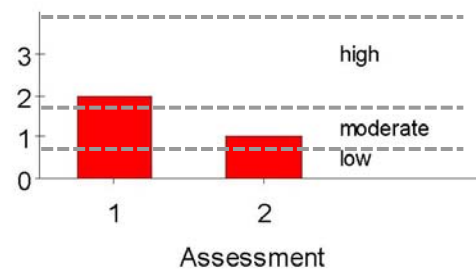

4. Peer Relations

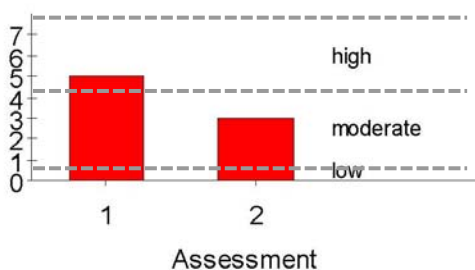

5. Substance Abuse

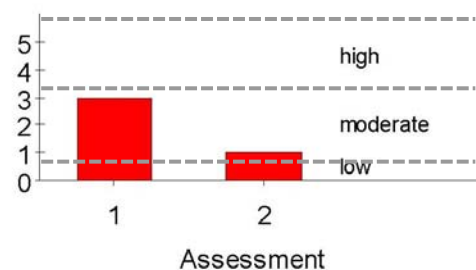

6. Leisure/Recreation

7. Personality/Behavior

8. Attitudes/Orientation

Profile Comparison

The following table displays risk/need levels across assessments for each area.

Area of Assessment	Assessment 1 15/01/2004		Assessment 2 28/05/2004	
	Level	Strength	Level	Strength
1. Offenses/ Dispositions	High	——	Moderate	——
2. Family/Parenting	Moderate		Low	
3. Education/ Employment	High		Moderate	
4. Peer Relations	Moderate		Low	✓
5. Substance Abuse	High		Moderate	
6. Leisure/ Recreation	High		Moderate	
7. Personality/ Behavior	High		Moderate	
8. Attitudes/ Orientation	Moderate		Moderate	

Note: Risk/need levels can range from Low to High. There is no Very High classification at the subscale level.
